

Program Philosophy

Our Spring tournament team program is "newly" designed. We will take great pride in these teams and run them in a professional manner. We demand every player have the discipline, determination, character and talent to compete at this high level.

Our main reason for putting these teams together is to give some of the top players in our area new opportunities. They will participate in some of the top tournaments in North America. These teams also provide the players and families the freedom to play with some players that they may normally compete against. Players will also be exposed to new teaching methods and coaching.

A few goals that we want to accomplish with each team are: for the players and their parents to have enjoyable, fun filled weekends and a great experience. A close second, is that every player learns something from his coaches and teammates. Finally, to assemble a competitive team and enter them in the top level tournaments offered.

2008 Coaching Staff

**99 – Chris Hurton
98 – Scott Marshall
97 – Jeff Grier
96 – Kameron Brothers
95 – Dana Bengtson**
